Two Student Chefs Bag Award at 2021 Pasadena Creative Seafood x Baking Contest Final

The 2021 Pasadena Creative Seafood x Baking Contest was an annual competition hosted by NKUST and sponsored by Pasadena International Group Co., LTD, to give the top prize with a total value of NT\$10,000.

The final was built around the concept of an ageing society. It saw competitors required to prepare a set of afternoon tea, including quiche, sandwich, and tea cake; they used specially selected local seafood and ingredients with their work being completed on-site within 5 hours.

The challenge of this final included inventing elderly-friendly fish desserts. Still, many young chefs strove to create their best dishes. Some even amazed judges and showed the potential to be a product on the store shelves.

NKUST student chefs won first place with their work "Fishing Village Trilogy (魚鄉三部曲)." Their idea came from a poem written by Poet Li Shen (李紳). One of the desserts called "each grain is the fruit of the farmer's labor (粒粒皆辛苦)" attracted heated discussion among judges.

All winners were invited to submit their creative plans to Uni-President Corp. Ltd.

Vocabulary
