## NKUST 4th Anniversary: Reaching the BEST Realm

Four years after the merger, three schools appeared to be a successful match for each other. The combined institution showed vibrant energy and strengthened its academic and research capacities.

This year marks the 4th anniversary of the founding of NKUST. The celebration ceremony took place on Nanzih Campus on Dec 4. This year's celebration events are of great variety. The NKUST Faculty and Staff Ocean Choir (NKUST Ocean Choir, 海韻合唱團) made its debut during the ceremony on Dec 4. Also, the Naval Architecture and Ocean Engineering Department (NAOE) held the 2021 Student Maker Model Ship Competition (2021 學生船模創客大賽) on the same day. The contest attracted 400 students of 15 high schools to participate in the game.

In the Conference Hall, NKUST Choir staged as the first program to celebrate the anniversary. The excellent performance of the NKUST Choir stunned guests and other faculty members.

Another concurrent event was held at the Art Center, where all supporting donors and alumni were invited to an Appreciation Breakfast. Some alumni have been retired and shared their experiences and stories in the shipbuilding industry or shipping industry.

### Vocabulary
