'Fun in Jobs: Reimagining Your Future' Exhibit Opens in March

The Education Ministry's Department of Technical and Vocational Education (DTVE), which has been working on improving TVE for years, caught the trend and held three exhibitions in Taipei, Taichung, and Kaohsiung this March.

The exhibition in NSTM was organized by NKUST and the National Pingtung University of Science and Technology (NPUST), and **themed** about "Fun in Jobs: Reimagining Your Future (技職大玩job · 探索fun無限)."

The exhibitions aimed to promote the image of **vocational education** and tell the public, especially parents, the value of vocational education.

DTVE Director Yang, Yu-Huei (楊玉惠) commented that "Vocational education, once viewed as low-tech, **burnished** its formerly 'dirty' image and served as an **incubator** to cultivate professional talents for high-tech industries."

Additionally, she used the automated robot presented in the former show as an example and **pointed out** that the level of **automation** was the key to deciding the **competitiveness** in the sector.

*The exhibit "Fun in Jobs: Reimagining Your Future" is open on the 4th floor of the NSTM as a **permanent** exhibition from March 27, 2022, to March 30, 2025.
