Yang Ming Donates Wärtsilä's Maritime Simulator to NKUST

Taiwan's shipping companies have developed rapidly and sailed **the seven seas** around the globe. The **prosperous** marine transport, in turn, relies on a number of trained maritime professionals. NKUST is one of the few universities in Taiwan that offers maritime engineering programs. It is also the top choice for marine transport companies to collaborate with academic and industrial projects.

The University held a donation ceremony to present the newest Wärtsilä ship navigation **simulator** donated by Yang Ming Marine Transport Corporation (Yang Ming) at Cijin Campus on Nov 21.

"Schools, unlike private companies, are often **inaccessible** to the latest industry equipment because of limited budgets and other challenges. With this ship navigation simulator, teachers can **leverage** this resource to help students of maritime professionals **acquire** the essential skills to succeed in their future careers. Thus, we sincerely appreciate Yang Ming donating such new equipment to us," says President Yang.

The University expected that using a ship navigation simulator could close the gap between theory and practice in maritime education. Tsou, Ming-Cheng, Dean of Maritime Training Center, remarked that the newest ship navigation simulator could help **facilitate** their training courses and **expedite** the process students adapt to the workplace.

Vocabulary

1. **Seven seas** **n** 七大洋
2. **prosperous** **a** 繁榮的
3. **simulator** **n** 模擬器；模擬裝置
4. **inaccessible** **a** 買不到的；難到達的
5. **leverage** **v** 借助已有的...實現新目標
6. **acquire** **v** 獲得；取得
7. **facilitate** **v** 使便利；促進
8. **expedite** **v** 迅速完成；加快；促進
